

Work shop proposal

Title

Introduction to Front-end Development.

Description

This workshop is aimed to teach

1. A robust front-end workflow
2. Bootstrap (CSS Framework)
3. Basics of HTML & CSS
4. JavaScript

Background

I worked as Front-end developer in Web 2.0, Innovation labs, Tata Consultancy Services, Chennai for almost 3 years.

Throughout my career, I acted as host for many workshops and training programs.

These are some decks <http://websiddu.github.io/decks/>

My github <http://github.com/websiddu>

My portfolio <http://websiddu.com>
